INFORMATIONS ADDITIONNELLES

**IMPORTANT ! À LIRE ATTENTIVEMENT ET À CONSERVER
EN VUE D'UNE CONSULTATION ULTÉRIEURE**

Le produit destiné à un usage domestique.

Vérifiez la présence et le bon état des différents composants avant l'assemblage.

Utiliser uniquement l'outillage fourni ou préconisé

N'utilisez et ne montez pas le meuble si certains éléments sont détériorés ou manquants et n'utilisez que des pièces détachées approuvées par le fabricant.

Un mauvais montage ou une mauvaise utilisation peut fragiliser le produit.

Tenez les enfants éloignés pendant le montage. Présence de petites pièces qui peuvent être ingérées.

N'utilisez ce produit que sur un sol plat et stable.

Tous les assemblages doivent être serrés correctement, vérifiés régulièrement et resserrés si nécessaire.

Un mauvais montage, calage ou manutention peut entraîner une fragilisation des assemblages et/ou des pièces.

Ne pas déplacer un meuble chargé.

Les meubles contenant des panneaux à base de bois peuvent émettre des substances polluantes dans l'air intérieur. Il est recommandé, après l'installation du meuble, de bien ventiler la pièce pendant au moins 4 semaines .

Risque de pincement lors de la fermeture du coffre.

A monter soi-même.

SAFETY INFORMATION

**IMPORTANT, RETAIN FOR FUTURE REFERENCE:
READ CAREFULLY**

The product is intended for domestic use.

Check the presence and state of the hardware and components before starting the assembly.

Use only the tools provided or recommended.

Do not assemble or use the furniture if some parts are broken, damaged or missing, and only use spare parts approved by the manufacturer.

Improper assembly, wedging or handling can lead to weakening of the assemblies and / or parts.

Keep young children away during assembly. Presence of small parts liable to be ingested.

Use your product on stabilized, level ground.

All joining devices should always be properly tightened and regularly checked, and re-tightened, if necessary.

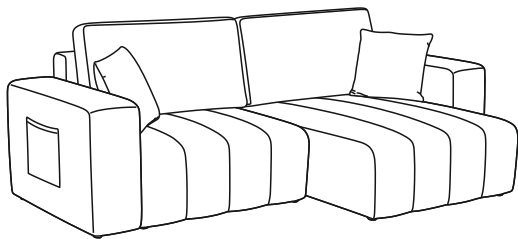

Improper assembly, wedging or handling can weaken the assemblies and/or parts.

Do not move loaded furniture.

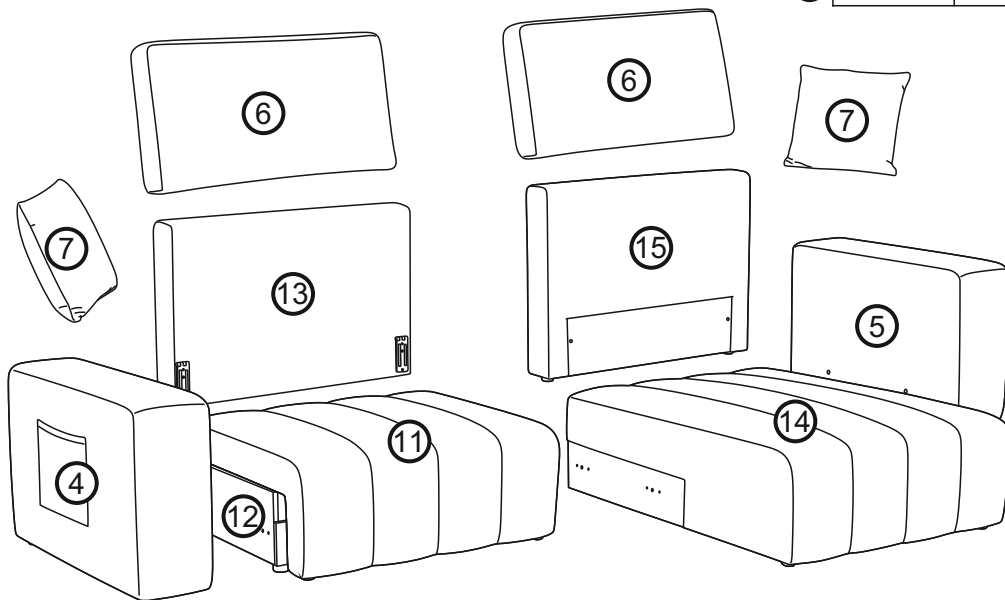

Furniture containing wood-based panels can emit polluting substances into the indoor air. It is therefore recommended, after installation of the furniture, to ventilate the room frequently for at least four weeks.

Risk of being pinched when closing the box.

To assemble by yourself.

CONSIGNES D'UTILISATION

- Le boulochage et le peluchage des tissus sont des processus naturels qui ne peuvent être totalement éliminés.
- Si le tissu est croché, il est possible d'arracher le fil.
- La migration des colorants des tissus de couleur intense et foncée vers les tissus de couleur claire est inévitable et constitue un phénomène naturel.
- L'exposition aux rayons UV et aux sources de chaleur peut entraîner des changements de couleur du tissu (en particulier pour les couleurs intenses).
- L'effet de chatoiement et d'ombrage du tissu est un phénomène naturel, en particulier avec les tricotés de velours.
- Il est recommandé d'éviter une forte tension ponctuelle sur la surface du tissu, qui pourrait entraîner un effilochage du tissu, un étirement irréversible, une déchirure du tissu.
- Pour des raisons technologiques, la teinte du tissu peut différer d'un ton de couleur par rapport à l'échantillon présenté dans le catalogue.

RANGEMENT ET ENTRETIEN

- Époussetez soigneusement avant tout entretien
- Toute tache doit être nettoyée rapidement
- Humidifiez un chiffon doux et propre avec du savon doux (ou du détergent)
- Ne jamais utiliser de produits abrasifs, poudre, laine d'acier, solvants.
- Ne pas mouiller avec une grande quantité d'eau

INSTRUCTIONS FOR USE

- The pilling of fabrics is a natural process and may not be eliminated.
- In case of fabric catching on sharp objects, the yarn may come out.
- Pigments migration from fabrics of intensive and dark colours into light-coloured fabrics is unavoidable and is a natural phenomenon.
- The operation of uv light and sources of heat may cause fabric discolouration (this refers mainly to intensive colours).
- irreversible creasing, particularly in the case of cut-thread fabric, such as velvet.
- The shimmering and shading effect are a natural phenomenon, particularly for velvet.
- It is recommended to avoid local pressure on the surface of a fabric, as it may result in the fabric splitting apart, irreversible stretching or tearing.
- Owing to technological reasons, the hue of a fabric may differ from the sample presented in the catalogue by one tone.

STORAGE AND MAINTENANCE

- Thoroughly wipe off the dust before any maintenance
- Any stain should be cleaned quickly
- Damp a clean, soft cloth slightly in water with a small amount of soap
- Never use abrasive products, powders, scratchers, solvents
- Do not soak with large amount of water
