IMPORTANT - KEEP FOR FUTURE REFERENCE - READ CAREFULLY

EN

IMPORTANT!

- ☐ Do not leave anything in the bed or place it close to another product, which could provide a foothold or present a danger of suffocation or strangulation (e.g. strings, blind/curtain cords)
- ☐ All supplied assembly fittings should always be tightened properly. The fittings should be checked regularly and retightened as necessary. Do not use the bed if one of the parts is damaged or broken. All parts should come from the producer directly.
- ☐ Be aware of the risk of open fire and other sources of strong heat, such as electric bar fires, gas fires, etc. in the near vicinity of the bed.
- ☐ In order to prevent a risk of suffocation, all plastic and EPS parts should be removed before usage of the bed.
- ☐ Children can become trapped between the bed and the wall. To avoid risk of serious injury the distance between the bed and the wall must always be less than 65 mm or more than 300 mm.

For the corresponding article number and name of the product we refer to the sticker applied on the packaging.

This product is not designed to be dismantled.

DO NOT use if any part is broken, torn or missing. Contact us for replacement parts. Do not substitute parts.

Please open the box carefully and don't throw away the box yet during assembly. The box is required in case of a possible return of the product.

The assembly is done preferably by two people. Be cautious not to damage any parts when doing the assembly alone. Carefully place the parts on a rug or carton before assembly to prevent scratches etc.

The length and width of the mattress shall be equal to the inner dimensions of the bed 200x90 .

Do not leave any screws untightened as a child may hurt itself or clothes (f.e. cords hanging on a pacifier or collars) can get stuck behind them and cause a risk of strangulation.

Only use appropriate tools for fastening the supplied assembly fittings. In case electrical tools are used be aware to limit the torque settings to prevent damage to the wood in case too much force is applied.

Cleaning instruction: use a damp cloth and some natural soap. Avoid the usage of aggressive cleaning agents.

Although we only use coatings that comply with regulations, we suggest to place the bed in a well-ventilated area for a few days so the specific odour that comes with a new product can disappear before usage.

This item is not intended for rent.

This product is not intended for use in commercial establishments, institutions, hospitals, etc.

WICHTIG! AUFMERKSAM DURCHLESEN UND FÜR SPÄTERES NACHSCHLAGEN AUFBE- WAHREN

ACHTUNG!

- ☐ Es darf nichts im Bett liegen bleiben und kein anderes Produkt in die Nähe des Bettes kommen, das vom Kind zum Klettern benutzt werden kann oder das ein potenzielles Risiko zum Erstickten oder Würgen darstellen kann (wie zum Beispiel Schnüre, Verdunkelungs- und Vorhangschnüre).
- ☐ die Befestigungsschrauben müssen regelmäßig überprüft und bei Bedarf festgezogen werden. Verwenden Sie das juniorbett nicht, wenn ein Teil beschädigt oder gebrochen ist, und / oder fehlt. Verwenden Sie nur Ersatz- oder Zusatzteile, die vom Produzenten kommen.
- ☐ Das juniorbett sollte nicht in der Nähe eines offenen Feuers oder anderer extremer Wärmequellen wie Elektroheizungen, Gasheizungen usw. aufgestellt werden.
- ☐ Um Erstickungsgefahr zu vermeiden, sollten alle Kunststoff- und EPS-Teile vor Benutzung des juniorbett entfernt werden.
- ☐ Kinder könnten zwischen Bett und Wand steckenbleiben. Zur Vermeidung von Verletzungen muss der Abstand zwischen Bett und Wand immer weniger als 65 mm oder mehr als 300 mm betragen.

Die entsprechende Artikelnummer und den Namen des Produktes finden Sie auf dem Aufkleber der Verpackung.

Dieses Produkt ist nicht für die Demontage konzipiert.

Verwenden Sie das Produkt NICHT, wenn etwas beschädigt ist oder Teile fehlen. Wenn Ersatzteile benötigt werden, fragen Sie bei **wir** nach Teilen. Nicht mit Teilen anderer Marken/Modelle ergänzen.

Öffnen Sie die Verpackung vorsichtig und bewahren Sie sie während der Montage eine Weile auf. Diese wird bei einer eventuellen Rückgabe des juniorbett benötigt.

Die Montage erfolgt vorzugsweise von zwei Personen. Achten Sie darauf, keine Teile zu beschädigen, sollten Sie das Produkt alleine zusammenbauen. Legen Sie die Teile vor dem Zusammenbau vorsichtig auf einen Teppich oder Karton, um Kratzer etc. Zu vermeiden.

Die Länge und Breite der Matratze muss den Innenabmessungen 200x90 cm des Kleinkinderbettes entsprechen.

Das juniorbett ist nur dann betriebsbereit, wenn die Verriegelungsmechanismen ausreichend eingerastet sind und handfest angezogen wurden. Lassen Sie keine Schrauben locker, da sich ein Kind oder die Kleidung (z. B. Schnuren die an Nuckeln oder Kragen hängen) hängen bleiben und die Gefahr einer Strangulation verursachen können.

Verwenden Sie zum Befestigen der Schrauben das richtige Werkzeug. Wenn elektrische Geräte verwendet werden, stellen Sie diese nicht mit zu starker Torsion ein, damit beim Holz keine Beschädigungen auftreten.

Reinigen Sie das Produkt mit einem feuchten Tuch und etwas natürlicher Seife. Verwenden Sie keine aggressiven Reinigungsmittel.

Obwohl wir für die Herstellung unserer Möbel nur unschädliche Lacke verwenden, empfehlen wir Ihnen, das juniorbett für ein paar Tage in einem gut belüfteten Bereich zu platzieren, damit der spezifische Geruch der mit einem neuen Produkt einhergeht, vor Gebrauch verschwinden kann.

Dieses Produkt ist nicht zur Vermietung bestimmt.

Dieses Produkt ist nicht für gewerbliche Verwendung vorgesehen (z.B: in Institutionen, Krankenhäusern usw.).
