UK:When lowering the slat unit for the first time, take care to make sure it does not rub unevenly on the inside face of the side rails. If it does, the bed has been assembled slightly out of square. This can be rectified by moving the foot end of the bed slightly to the left or right whilst leaving the headend stationary.

DE:Der Lattenrost sollte beim ersten Absenken nicht an der Innenseite des Bettrahmens reiben. Wenn dies der Fall ist, bedeutet dies, dass das Bett schief montiert wurde. In diesem Fall halten Sie das Kopfteil fest und verschieben Sie das Fußteil leicht nach links oder rechts.

FR:Évitez tout frottement entre l'intérieur du cadre latéral et le cadre de sommier lors de la première descente du lit. Si tel est le cas, cela signifie que le lit n'est pas installé correctement, veuillez ajuster légèrement les pieds du lit vers la gauche ou la droite tout en gardant la tête de lit immobile
