FR:

Le tissu de votre siège aura une tendance naturelle à boulocher. Ceci n'est pas un défaut dès lors que :

- Les bouloches peuvent facilement être enlevées ou s'estompent avec le temps,
- Le nombre de bouloches n'affecte pas sensiblement l'esthétique de votre produit

Un siège changera tout naturellement de forme et d'aspect sous l'effet de l'affaissement ou du déplacement du rembourrage dans le temps. Afin de prolonger le gonflant de votre produit et de répartir l'usure de façon régulière, Il est fortement conseillé :

- De retourner régulièrement les coussins si cela est possible.
- De relisser la surface des assises immédiatement après une utilisation prolongée et de masser les coussins pour leur redonner du gonflant.

Toute modification du produit engage la responsabilité du client.

EN:

Your seat fabric will have a natural tendency to pill. This is not a defect if:

- Pilling can easily be removed or fade over time,
- The number of pills does not significantly affect the aesthetics of your product.

A seat will naturally change shape and appearance as the padding sags or shifts over time. In order to prolong the shape of your product and evenly distribute wear, it is strongly recommended:

- Turn the cushions over regularly, if possible,
- To smooth the surface of the seats immediately after prolonged use and to massage the cushions to restore their swelling.

Any modification of the product engages the responsibility of the customer
